

CRYPTOFORCE

BLOCKCHAIN P2E GAME

WHERE COMPETITION MEETS EARNINGS IN A VISUALLY STUNNING P2E GAME.

Whitepaper of
CRYPTOFORCE | \$COF

CA: 0x230f5ed78a45452f726365b8ad1d6866f5faa68f

What is Cryptoforce Game?

Cryptoforce is a visually stunning Play-to-Earn (P2E) game that merges the excitement of gaming with the opportunity to earn through gameplay. It offers both Player vs. Environment (PvE) and Player vs. Player (PvP) modes.

How do you earn in Cryptoforce?

Players can earn COF chips, the game's primary currency, by completing tasks and defeating mobs. These chips facilitate in-game transactions and can be earned while playing.

WHAT ARE COF CHIPS?

COF chips are the in-game currency used in Cryptoforce for almost all transactions, ranging from in-game purchases to rewards for completing tasks and defeating enemies.

Has the contract been renounced?

Yes, \$COF contract was renounced after the project launch.

Renouncing a smart contract means that the contract's creator will no longer have control over it, so no one can mint new tokens, raise taxes, blacklist wallets or other dangerous contract functions for investors and holders.

PHASE 1

Launch Initiative

Launch of official website.
Game's grand debut with multiplayer PVP mode.
Introduction of diverse abilities to enrich gameplay dynamics.
Game update with new enhancements and relaunch.

PHASE 2

Blockchain Integration

Metamask support and integration.
Introduction of the game-specific wallet.
Rollout of COF - Chips as primary game currency.
Initiate transfer testing to ensure seamless transactions.
Addition of new blockchain-anchored dungeons.

PHASE 3

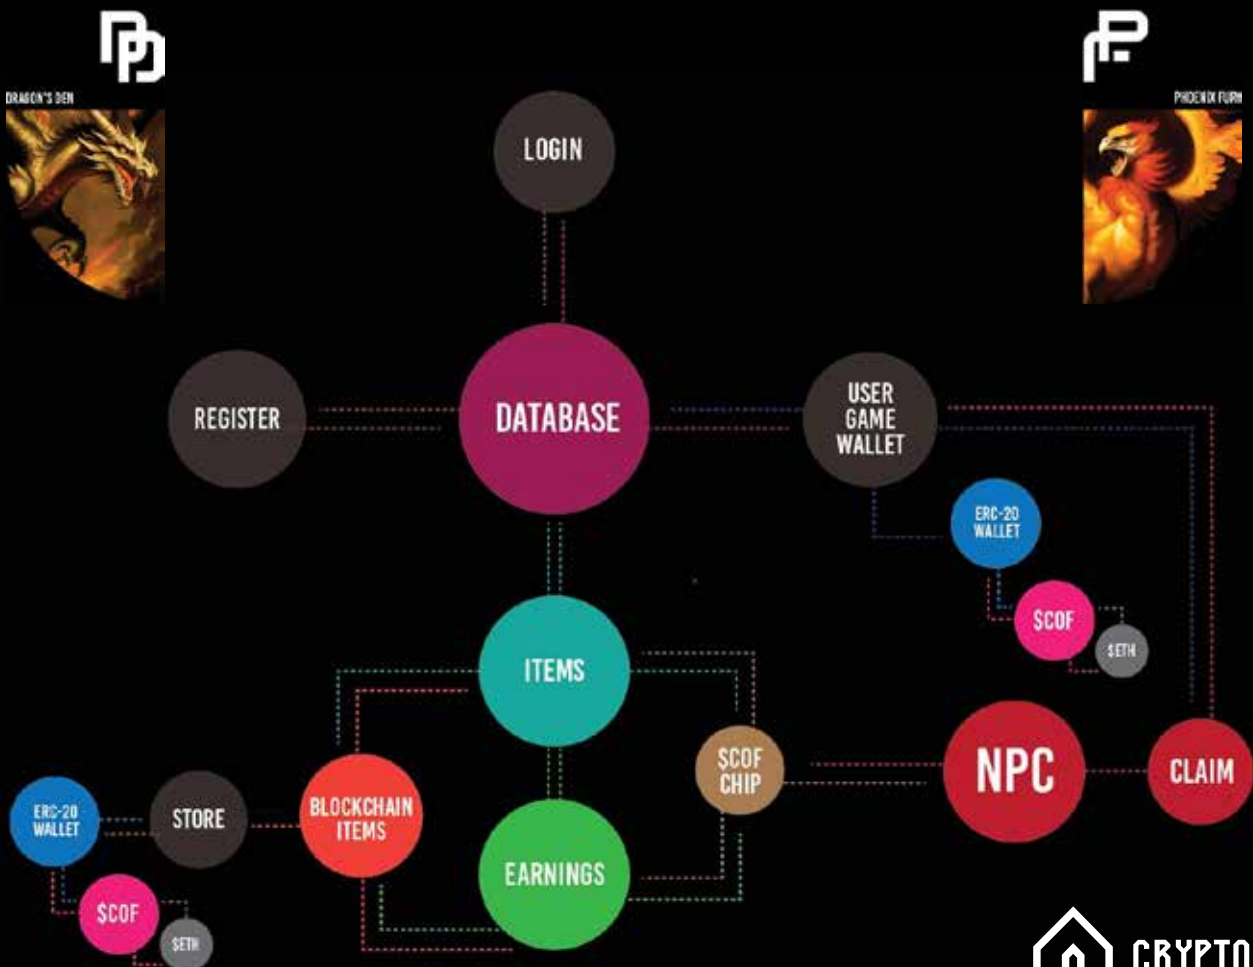

Visual Renaissance

Complete graphics overhaul for a riveting visual experience.
Introduction of enhanced animations to add life to the game. Gameplay is redefined with improved visuals and real-time animations.

PHASE 4

Competitive Drive

New website launch with advanced functionalities.
Expansion of multiplayer modes including co-op missions.
Advanced leaderboard integration for competitive tracking.
Performance analysis against players worldwide to enhance game dynamics.

PHASE 5

Marketing Blitz

Striking billboard campaigns in 4 strategic locations.
Aggressive Twitter engagement with daily raids of 3,000 tweets.
Collaborations for exchange listings to increase game currency liquidity.
Active promotions and game showcases on platforms like YouTube and Twitch.

PHASE 6

Exclusive Bonanza

Launch of time-sensitive in-game events to engage users.
Exclusive rewards and incentives to foster participation and loyalty.

PHASE 7

User-Centric Refinement

A refreshed and more intuitive user interface rollout. Focus on a sleeker design to ensure user-friendly interactions and experiences. Stay Engaged: Our journey is ever-evolving. More thrilling milestones and updates are coming your way!

...and much more!

% CIRC. SUPPLY: **100.00%**

4% tax is applied to Buy/Sell/Transfer transactions in the project.

Where do taxes go?

This tax is allocated as follows:

Users can contribute to the project's development through their ideas and support. Additionally, by participating in games and engaging with the community, they can help foster the growth of the project.

Cryptoforce is a fast-paced, multiplayer blockchain game set in a world of cryptocurrency and high-tech warfare. Players join one of two rival factions, either the Phoenix Fury or the Dragon's Den team, and engage in intense battles to gain control over territories and resources critical to their faction's survival.

The game features a wide range of weapons, gadgets, and abilities, allowing players to customize their loadouts and play styles to suit their preferences. Players can also earn experience points and level up their characters, unlocking new weapons, upgrades, and customization options as they progress.

Cryptoforce offers a variety of game modes, including Domination Fields where players must capture and defend three flags on the map to earn points, Payday Assault where players must work together to rob a bank while fending off waves of enemy attacks, Bloodbath Arena where players compete against each other to be the first to reach a certain number of kills, Last Stand Operations where players must work together to complete missions while surviving enemy attacks, and Target Practice Range where players can practice their shooting skills.

TOURNAMENTS

Choose your weapon!

We are excited to announce that we will be hosting monthly, quarterly, semi-annual, and annual tournaments in our game! These tournaments will be an excellent opportunity for players to showcase their skills, compete against other top players, and win exciting prizes. We understand that many of our players are highly skilled and deserve recognition for their achievements in the game. That's why we have decided to host these tournaments to give you all a chance to prove your worth and compete against other skilled players.

REGULAR UPDATES

Join a unique community!

Players can earn unique skins for their weapons in the game, which can be sold in exchange for the game's token. These skins not only enhance the appearance of the player's weapons, but they can also add value to the game's economy.

Play, compete, earn – ultimate gaming awaits!

CA: 0x230f5ed78a45452f726365b8ad1d6866f5faa68f

Can you develop your character in the game?

Absolutely. The game includes a comprehensive skill chain for character development. Players can enhance their characters' skills, earn daily profits, and grow continuously within the game.

What types of competition are available in Cryptoforce?

The game offers various competitive modes including player vs. player, clan vs. clan, 1v1 challenges, and team-based competitions like 2v2 and 5v5.

Is Cryptoforce free to play?

Yes, it is free to play.

\$COFchips can be earned from mobs and tasks.

Dropped items can be exchanged with NPCs in exchange for \$COFchips.

Each game mode offers its own challenges and objectives, requiring players to work together and use their skills and strategies to emerge victorious. With its intense action, deep customization options, and engaging storyline, Cryptoforce offers an immersive and thrilling gaming experience for players who crave high-stakes, high-adrenaline combat.

Living Economy

We enable our players to create their own economies. You will be able to buy and sell items you obtain from tasks and enemies through our official website for COF. This dynamic marketplace provides our players with an opportunity to make an impact that holds real-world significance.

**CRYPTOFORCE: FULL POWER OF BLOCKCHAIN TECHNOLOGY
IN THE WORLD OF GAMING**

MARKETPLACE

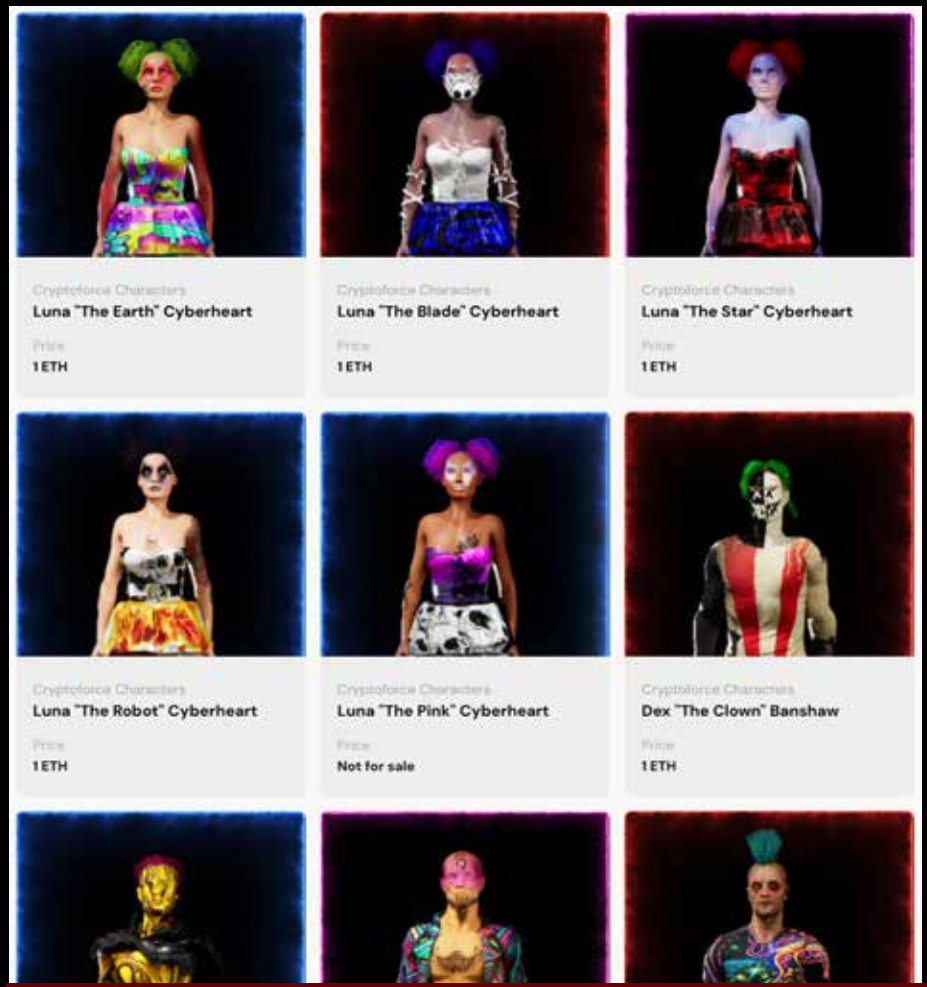

You can buy/sell NFTs related to games and projects from the \$COF Marketplace. These will be important elements that will grant you privileges in the future.

TRADE WITH THE FUTURE: THE POWER OF COF CHIP IN UNIVERSAL TRADING!

Every detail is important!

- Player vs. player competition
- Clan vs. clan competition
- 1v1 challenges;
- 2v2, 5v5 team-based competition

We are considering everything, even the smallest details.

Cryptoforce, represented by its token \$COF, is a Play-to-Earn (P2E) game that offers a unique blend of gaming excitement and earning potential. The game is visually stunning and includes various modes such as Player vs. Environment (PvE) and Player vs. Player (PvP). Here are some key aspects that make \$COF an interesting choice for users and potential investors:

IN-GAME CURRENCY: COF chips are the primary in-game currency in Cryptoforce. They are used for almost all transactions within the game, including in-game purchases and rewards for completing tasks and defeating enemies.

TRADING SYSTEM: The game features a dynamic trading system using COF chips, creating a vibrant marketplace within the game's universe. This allows players to engage in universal trading and potentially profit from their gaming activities.

CHARACTER DEVELOPMENT: Players can develop their characters through a comprehensive skill chain, enhancing their abilities and increasing their potential to earn within the game.

DIVERSE GAMING MODES: Cryptoforce offers a range of competitive modes, including various PvP formats (clan vs. clan, 1v1 challenges, team-based competitions), mobile & VR games, and a unique Dark Zone mode which evolves the battle royale concept.

TOURNAMENTS: The game hosts various tournaments (monthly, quarterly, semi-annual, and annual), providing players with opportunities to showcase their skills, compete, and win prizes.

TOKEN TRANSFERABILITY: Players can transfer the COF tokens they earn in the game to external wallets like Metamask, which is an important feature for those looking to realize their earnings outside the game.

SECURITY AND TRANSPARENCY: The \$COF contract has been renounced post-launch, meaning that no new tokens can be minted or other major changes made, adding a layer of security for investors. The purchase and sale tax is 4%, and the liquidity is locked, adding to the trustworthiness of the project.

AVAILABILITY ON EXCHANGES: \$COF can be purchased through various decentralized exchanges like UniSwap, MevFree, KyberSwap, and others, using crypto wallets like Metamask or Trust Wallet that interact with the Ethereum network.

INTEGRATION WITH BLOCKCHAIN: The game leverages the full power of blockchain technology, providing a secure and innovative gaming experience.

The combination of these features makes \$COF an attractive option for both gamers and investors. Gamers are drawn to the earning potential and exciting gameplay, while investors might see value in the game's unique economic system, secure blockchain integration, and the growing popularity of P2E platforms.
